Jayne, I agree with Lynda that the template looks good. It's an example of good project management on your part and the team's part.

Subject: OR CZARA Issue Briefing Paper Template

Hi All,

As agreed during the meeting today, I developed a template for preparing a briefing paper on those issues that we are elevating to our management. See below. Feel free to critique and/or use. We'll discuss during next week's meeting.

1. **Issue Statement:** What problem or issue needs to be resolved? Describe the issue and clearly state the decision that needs to be made by management.
2. **Background:** Provide background information needed by management in order to make the decision. What are the impacts or significance of the issue? What are the constraints? Who is impacted by the issue? What are the risks of not resolving the issue? When does the decision need to be made? Keep concise (less is more) and include graphics as appropriate. You can include additional information in attachments or wait to answer questions during the briefing.
3. **Action Options & Recommendation:** What are the options and how do these options address the issue? Discuss the pro's and con's and consequences of the various options. What are the opposing arguments (whether they've been made or could be made). Financial implications? Precedent implications? Political implications? Make a recommendation and explain why you are not recommending alternatives. If you don't have one recommendation or the team cannot agree on one recommendation, then describe the alternative options.
4. **Conclusion/Next Steps:** If relevant, describe how the recommendation would need to be implemented (decision-maker, communications strategy, timeframe, additional information needed).

Hope this helps!

Jayne
